TENTE

BETTER MOBILITY. BETTER LIFE.

DESIGN

Design for furniture

Levina

ADVANTAGES

Levina

- **Reduction of swivel interference:**
  Easy fitting on different frames.
- **Integrated threadguard:**
  Reduction of costs for cleaning and maintenance operations.
- **Colour matching:**
  Colours can be adapted to match the product design.

Deutscher Designer Club

universal design award 09

TECHNOLOGY

Levina

- **High quality plastic material:**
  Good shock absorbing properties and noise reduction.
- **Non marking:**
  Wheels with reduced abrasion prevent surface floors damages.
- **Different fitting available:**
  Suitable for all design.

IN USE

Levina

For the furniture and design industry:

Flexibility for a wide range of applications.

The result:

Eye-catching and low noise performance

SPECIFICATIONS

Levina

Overall height	177 mm
Offset	52 mm
Wheel size	Ø 150 mm
Load capacity	150 kg – dynamic load capacity according to DIN12530
Wheel name	Maxtech
Wheel centre	Polyamide
Tread	Polyurethane
Bearing	Precision ball bearing
Temperature	-40 to +80°C
