

# Titan Maxi - 32mm

Pneumatic Steel Strapping  
Tool - Titan Maxi - 32mm

#61803

Simple & Efficient  
Operation

Tubeless  
Design

Comfortable &  
User-friendly

Powerful  
Tension

The Titan Maxi - 32mm is the ultimate pneumatic strapping tool for steel strapping, designed to streamline your strapping process with unmatched efficiency and ease. This tool is the go-to solution for steel strapping with seal joint, boasting a second-generation design that emphasizes user-friendliness and intuitive operation. Our pneumatic strapping tool is ideal for light steel strapping tasks, offering unmatched efficiency and ease in space-constrained environments.

The Titan Maxi is an exceptional Pneumatic Steel Strapping Tool that delivers excellent performance, versatility, and ease of use. Its lightweight, tubeless design, ergonomic features, and powerful tension make it the ideal tool for packaging professionals that need to get the job done quickly and efficiently.

## Features

- Tubeless Design: Simplifies handling
- Ergonomic: Comfortable and user-friendly
- Powerful Tension: Up to 8,000 N

## Specifications

<b>Drive (tensioning)</b>	Pneumatic
<b>Tension Force</b>	max. 8,000 N (adjustable)
<b>Drive (sealing)</b>	Pneumatic
<b>Seal Size</b>	19mm, 25mm, 32mm
<b>Strap Feeding Speed</b>	30.48 cm/s
<b>Dimensions</b>	450mm x 195mm x 300mm
<b>Weight</b>	11.7kg
<b>Air Pressure</b>	min. 5 bar flow pressure max. 6 bar flow pressure
<b>Air consumption (during tensioning)</b>	11 Litres per sec
<b>Air consumption (during sealing)</b>	6 Litres per sec
<b>Cross-section</b>	G 13.157 mm
<b>Noise level</b>	76 dB (A)
<b>Strap Type</b>	Steel
<b>Strap Width</b>	19mm, 25mm, 32mm
<b>Strap Thickness</b>	0.80mm - 1.0mm
<b>Seal Type</b>	Seal-joint (double notch)
<b>Sealing strength (depending on strap quality, strap dimensions)</b>	Up to approx. 75% of the strap breaking load
