

## Drum Lifter - Single Parrot Beak Forklift Attachment - 360kg Capacity

The MFDG360 Single Drum Lifter is built for the safe and efficient handling of individual drums in warehouses, factories, and industrial environments. Designed to quickly attach to most standard forklifts via fork pockets, it offers a convenient solution for lifting, moving, and placing drums without manual strain.

### Features

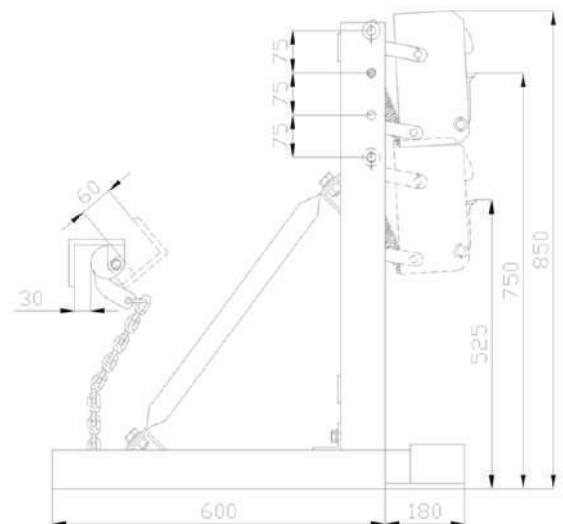

- **Lifting Capacity:** 360kg for a single drum.
- **Versatile Drum Handling:** Suitable for steel, plastic, and fibre drums.
- **Secure Grip:** Spring-loaded single beak grip head engages automatically for a safe hold.
- **Adjustable Design:** Height-adjustable grip head accommodates various drum shapes and sizes.
- **Hands-Free Operation:** Operator can lift, place, and remove drums without leaving the forklift seat.
- **Durable Construction:** Robust steel frame with powder-coated safety yellow finish for high visibility and corrosion resistance.
- **Enhanced Stability:** Upgraded with a lower support belt for improved drum stability during transport.
- **Safe Attachment:** Includes a heavy-duty chain and end clamp to securely fasten the lifter to the forklift.

### Specifications

Model		MFDG360
Capacity	(kg)	360
Acceptable Drum		Steel, Plastic, Fibre
Fork Pockets	(mm)	L600xW150xH55
Fork Opening	(mm)	510
Distance Between Inner Pockets	(mm)	360
Distance Between Outer Pockets (Overall)	(mm)	670
Overall Size	(mm)	L780xW670xH850
Net Weight	(kg)	42

*Note: Forklift shown in images is for demonstration purposes only and is not included.*
