

KM-Tugs (KMT-T15) 1500kg 1565x723x1160mm

This smart tow tractor with its 1500kg capacity makes it a simple machine to tow, trailers, boats, light planes, cars and caravans. Predominantly used in airports, warehouses and other facilities, this tugger is great for compact and condensed areas when open space is limited. It not only has the ability to pull loads, but push them as well without extreme stress or strain on the user's body. Easy to reach button controls are centrally located on steering handle. Unit includes batteries, battery charger and battery level gauge.

Features

- Durable steel construction.
- Large tires for increased traction.
- DC operated for consistent power supply.
- Powder coated surface for long term toughness.
- Easy to connect to the adjustable tow bar or front towing hitch.
