

Mitcorp F1000 Videoscope

Mitcorp has released the new **F1000** videoscope which bridges the price and feature gap between the affordable F700 and advanced X500 videoscopes. The F1000 has a larger screen, increased resolution, longer battery life, is rechargeable, has voice recording and comes with a rugged carry case. The F1000 also has the largest range of standard and specialised interchangeable probes available and is compatible with all of the F700 probes.

Talk to RFS about your application and we will match it with the correct probe.

VISUAL INSPECTION | NON-DESTRUCTIVE TESTING WIDE RANGE OF INDUSTRIAL APPLICATIONS
