

Hydraulic Scissor Lift Table - 1000kg Capacity / 1m Lift

The MTT100 Manual Hydraulic Lift Table is designed for **safe, ergonomic lifting** of heavy goods up to **1000kg**. With its compact size and powerful lifting mechanism, it's perfect for use in **warehouses, workshops, packing areas, and production facilities**.

Operated via a **foot pump**, the table can be easily raised to reduce strain caused by repetitive lifting or bending. Lowering is controlled through a **hand-operated release lever**, allowing for smooth, safe height adjustments. Its **urethane castors** ensure smooth movement across delicate floors such as tiles or timber, while the **rear braking system** keeps the unit stable during use.

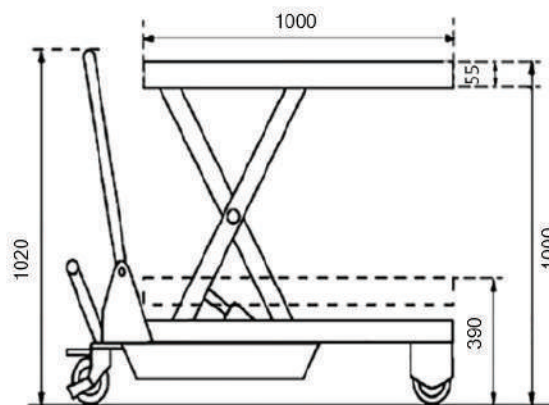

Features

- **1000kg Load Capacity** – Designed for heavy-duty industrial and commercial use.
- **Ergonomic Foot Pump** – Allows users to lift loads safely to the desired working height.
- **Hand Release Lever** – Provides controlled lowering of the table.
- **Rear Braking System** – Locks the unit securely during operation.
- **Overload Bypass Valve** – Protects the hydraulic pump from overloading.
- **Polyurethane Swivel Castors** – Suitable for delicate floor surfaces like floorboards, tiles, or marble.
- **Powder-Coated Safety Yellow Finish** – High visibility and extra resistance to wear and tear.
- **Manual Push Design** – Easy to manoeuvre with a comfortable handle height of 1020mm.

⚠ Note: For lifting goods/products only. Not suitable for lifting people.

Specifications

Model		MTT100
Capacity	(kg)	1000
Min. Table Height	(mm)	390
Max. Table Height	(mm)	1000
Table Dimensions	(mm)	1000x510x55
Castor Wheel Size	(mm)	Ø150x50
Handle Height	(mm)	1020 (from ground level)
Net Weight	(kg)	110
