Mobile Fan and Heavy Duty Extension Ducting

FLEXIBLE

Heavy duty and high temperature ducting combined with a metal hood and robust magnetics for positioning the hood make this set up an ideal choice for all mobile fume and dust extraction for light and heavy duty applications.

Extracting fumes at source means -

- Less air is moved
- Only the fumes are extracted

- Connect to mobile fan inlet and extract at source fume and dust.
- Supplied with magnetic hood and clamps either end.
- Extra or longer extension ducting complete with transition hood and clamps, also available.

Product List

Extension Ducting Ø160mm x 3m, with magnetic hood	P-018
Extension Ducting Ø160mm x 3m, with transition hood and clamps	P-397
Extension Ducting Ø160mm x 6m, with transition hood and clamps	P-398
Mobile P-Max fan 0.75kW/1 Phase on wheels with handle	P-324
