

Retainer for 4.8mm ML414 Micro Batteries

Part No: K2994 & K2994TR
SMT Retainer for 4.8mm
ML414 Micro Batteries

Part No: K2995
THM Retainer for 4.8mm
ML414 Micro Batteries

A Miniature Lithium button cell retainer suited for most portable medical devices such as hearing aids, diabetic monitoring devices, implantable optics and others utilizing high density PCB packaging.

- Available in Thru Hole Mount (THM) or Surface Mount (SMT) configurations.
- Made of Phosphor Bronze. Surface Mount (SMT) versions are supplied with Gold Plate, Thru-Hole Mount (THM) version is supplied with a Tin-Nickel Plate.
- Ideally suited for High Density packaging.
- Reliable spring tension assures low contact resistance.
- Retains battery securely to withstand shock & vibration.
- Battery Reference: ML414.
- SMT available in Tape & Reel packaging compatible with most vacuum and mechanical pick and place assembly systems
