Flexible Extraction Arms

SELF SUPPORTING
Flexible arm with Internal/ External support construction, easy to clean with precise manoeuvrability. Unique spring controlled lock to hold the arm steady under operation.

FLEXIBLE
High temperature resistant hose combined with a metal hood make the lightweight arm the best choice for professional and heavy duty applications for fume and dust.

Alfi Arms

Constructed with flexible:

- IS - Internal Support
- ES - External Support

Available in 3 Options

- Steel bracket for wall mounting (standard)
- Ceiling Mount - from a hanging position
- Ready for table mounting

Hoses

Wide range of hose diameters:

- 63 and 75mm (high pressure hose) for vacuum systems.
- 100, 125, 160 and 200mm for low and medium vacuum systems.

Accessories

Fans, spotlights, up to 4m extension arms & extension ducting and ducting with magnetic hood.
