

TMM4 PLUS

MULTI-PURPOSE STRETCHER-CHAIR

TMM PLUS SERIES

Minimize Transfers, Maximize Safety

The versatility of TransMotion's TMM4 PLUS Multi-Purpose Stretcher-Chair allows for utilization in a variety of facilities and departments. Innovative, powered patient positioning helps eliminate patient transfers, limiting the risk of injury to patients and staff while improving throughput. The TMM4 PLUS is a procedure chair, transport device and stretcher all in one!

ONE PATIENT, ONE SURFACE®

ANATOMY OF A TMM4 PLUS STRETCHER-CHAIR

SPACE-SAVING FOOTPRINT

In the seated position, the TMM4 PLUS requires half the space of a traditional stretcher and is easy to navigate through hallways, rooms, elevators and other close quarters. Its small footprint frees-up floor space so more units can be available for patients as well as enabling more efficient storage.

Multi-Layer Foam Cushions

Available in Sure-Check® Fusion Fabric or Healthcare-Grade Vinyl

Manual Quick Release Back

Padded Swing & Tuck Side Rails

24" Standard Seat Width

**Not shown: Optional 28" seat width available for X and Non-X models.*

Auto-Extending Footrest

*Non-X Models Only
Not shown: Manual-folding footrest option available for X and Non-X models.

Locking Casters

Electro-Static Discharge (ESD) Steering Caster

ONE PATIENT, ONE SURFACE® FROM ADMISSION TO DISCHARGE

Admission

Transport

Procedure

Discharge

Reducing patient transfers increases patient throughput while decreasing the likelihood of incurring costs associated with staff injury and worker's compensation claims.

TMM4X PLUS STRETCHER-CHAIR

TMM PLUS SERIES

**Auto-Extending Footrest
NOT Available on X-models**

**Not shown: Manual-folding footrest option available for X and Non-X models.*

**20° Trendelenburg /
5° Reverse Trendelenburg**

In stretcher position

**Optional Triple Column Base
(24" - 40" seat height)**

**available for X and Non-X models*

33" Wheel Base

X-Models ONLY

* OPTIONAL INTEGRATED SCALE (Q)

The *Integrated Scale (Q) is exclusively available as an optional configuration for our TMM PLUS-X Stretcher-Chairs. This convenient hand-held device stores in the back of X-Model Stretcher-Chairs and allows staff to record a patient's weight accurately and efficiently without having to transfer the patient.

** The Integrated Scale (Q) is available as an OPTIONAL configuration for TMM PLUS-X Models ONLY and must be selected at the time of purchase. The Q option can NOT be added to non-X models.*

ALTERNATE CONFIGURATION OPTIONS
