

# OSMOSIS, SPEEDY WATER AND DISCOM Demineralization systems

Cominox® expands the concept of safety to all products surrounding steam sterilizers. Technological innovation and quality apply to ancillary products as well, such as Speedy Water and Osmosis demineralizers and Discom water distillers. The global and systematic approach to the areas of hygiene and sterilization are representative of Cominox' philosophical strengths, and demonstrates a profound and conscious attention to detail for all aspects of the medical industry.

## SPEEDY WATER, demineralizer

- Constant and automatic monitoring of water conductivity at two levels (15 and 30  $\mu\text{S}/\text{cm}$ )
- Compact
- Simple to install
- Easy maintenance thanks to the disposable purification unit

## DISCOM, water distiller

- Produces 100% distilled water
- Auto shut-off
- Easy to clean
- Economical

## OSMOSIS, demineralizer

- Constant and automatic monitoring of water at two levels (15 and 30  $\mu\text{S}/\text{cm}$ )
- Long-lasting filters (4000 liters)
- Pressure gauge and booster pump
- Pressure tank

**COMINOX®**

TECHNOLOGY. STERILIZATION. SAFETY.

# OSMOSIS, SPEEDY WATER AND DISCOM Demineralization systems

## OSMOSIS

	U.M.	
Flow rate	l/h	7
Operating pressure	bar	from 5 to 7
Tap water pressure	bar	from 2 to 6
Overall dimensions W x H x D	mm	400 x 540 x 560
Tank diameter	mm	300
Tank height	mm	400
Electrical voltage and frequency	V - Hz	230 - 50 (single - phase AC)
Absorbed maximum power	W	100
Operating weight (mass)	kg	30
Saline removal	%	from 96 to 98
Production capacity of ion exchange resin cartridges	l	4000

Technical data are subject to change without notice

## SPEEDY WATER

	U.M.	
Flow rate	l/min	from 0,5 to 0,7
Overall dimensions W x H x D	mm	160 x 540 x 180
Operating weight (mass)	kg	5,6
Tap water pressure	bar	from 1 to 4,5
Production capacity	l	300* => 1 year duration**

\* Tap water conductivity equal to 650 µs/cm

\*\* Daily average of 2.5 cycles

Technical data are subject to change without notice

## DISCOM

	U.M.	
Distilled water production	l/h	0,57
Capacity	l	4
Overall dimensions Ø x H	mm	200 x 360
Electrical voltage and frequency	V - Hz	230 - 50 (single - phase AC)
Absorbed maximum power	W	580
Weight (mass)	kg	3,5

Technical data are subject to change without notice
