

Schlebach

Small Profile Machines

Profile shaping machine

A Universal machine that caters for the requirements of available options: first time users or builders. The profile shaping machine EPM 25 is an ideal choice for short, conical or pointed panels. Since the machine produces single-sided profiles the panels are quickly shaped in two operations that do not require width adjustments. It is easily moved and quickly set up due to its low weight and the use of plug-in carrying handles.

Technical Data

Dimensions:	L X W X H 950/1.250 x 600x 1.070 mm
Working height:	870 mm
Drive:	1,1 kW, 230 Volt, 1-ph., 50 Hz
Feed rate:	11 m/min.
Weight: app.	180 kg

Available Options:
