

Extra accessories SMART AND CONVENIENT...

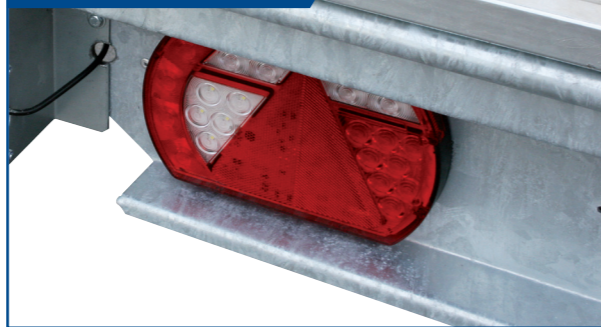

Robust trailers - with upgraded chassis AND LEAF SPRING SUSPENSION

HIGH TARPAULIN

Strong quality, with welded frame and transverse bracing. Internal stand height when mounted.

LED LIGHT

Beautiful and bright LED light. Provides good security in the dark.

ALUMINUM FLOOR

Increases the life of the trailer and provides a safe and non-slip up and down of stock.

FRONT STAND

Hot galvanized, for lashing of goods. Mounted in the corner posts. Height 70 cm.

EXTRA DROPSIDES

Increases trailer space content. All sides are hinged and removable. Smooth and easy to clean.

TOOLBOX

Powerfull toolbox with built-in lock, for storage of straps etc.

Subject to errors and changes.

NEW

Two universal trailer types with galvanized chassis and leaf springs

Pro-Line

- the strongest boogie trailer in two sizes

A solid trailer series with leaf springs.

The popular Pro-Line trailers, now a part of the Maxi-Load series. 2 strong models with standard total weight of 3.500 kg, and payload up to 2.915 kg. The loading sizes are 320x180 cm and 420x210 cm.

The trailers are distinguished by having a fully welded and hot-dip galvanized chassis with extremely high strength and leaf springs ensuring top-quality suspension and driving characteristics. Alusides with integrated closure system, powerful inner lashing eyes folded into the frame and jockey wheel for easy towing.

Equipment that makes them very suitable for the demanding craftsman.

(Model shown 3521 X4)

Leaf springs provide extra strength and durability. Also at maximum load..!

3518 X3	3521 X4
Inside box size: 315x175x35 cm	Inside box size: 415x205x35 cm
Gross weight: 3.500 kg	Gross weight: 3.500 kg

STANDARD ACCESSORIES FOR BOTH TRAILER-SERIES

Extra powerful, with perfect driving characteristics, thanks to the thoroughly tested leaf spring system. Trailers designed to be used - every day. That's Maxi-Load...!

Uni

- the strong tip trailer in three different sizes

Universal trailers for heavy transport.

Large, powerful trailers with manual hydraulic tip and a strong rear ramp. Suitable for easy and safe transportation of machines from A to B. The loading lengths range from 420-620 cm and the width is 210 cm.

The UX trailers are also part of the Maxi-Load series, and feature a fully welded and hot-dip galvanized chassis with extremely high strength, leaf springs ensuring superb suspension and top-class driving characteristics. The total weight is 3.500 kg and the payload up to 2.528 kg.

When operating the hydraulic system, the trailer is easily pumped to a driving angle between 10 and 12 degrees. Combined with the ramp length, giving it a perfect angle for loading or unloading, even with low ground vehicles.

Powerful lashing eyes embedded in the frame, and jockey wheel are standard.

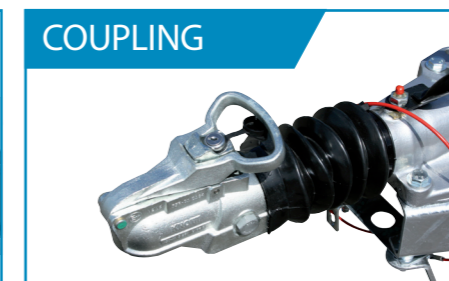

(Model shown 3553 UX)

Leaf springs provide extra strength and durability. Also at maximum load..!
