

INDUSTRIAL WORKBENCHES EASY ORDER GUIDE

PROUDLY AUSTRALIAN MANUFACTURED

BTK-003-002

DURABLE. RELIABLE. STRONG.....

BOSCOTEK™ Industrial Workbenches are designed to support high loads and accommodate heavy-duty applications. With a wide range of flexible accessory options, workbenches can be customised to the requirements of their specific application. Height adjustable legs and shelving units, ensure workstations meet the ergonomic requirements of each individual.

1	Feature	Solid construction
	Workbenches are constructed using the finest grade materials. Bench legs are manufactured from 3mm steel with standard mild steel tops from 3mm steel.	
	Benefit	Reliable workspace solution.

2	Feature	Benchtop options
	A range of benchtop options are available to create the perfect workbench for your application, choose from Stainless Steel, Duraloid, Anti-Static, Hardwood and Heavy Duty Steel.	
	Benefit	The perfect work surface for your application.

3	Feature	Accessory channel
	Built in channel at front and rear of bench top to accommodate the installation of bench accessories.	
	Benefit	Allows various accessories to be mounted including vices, shelves and clamps.

4	Feature	Adjustable legs
	Optional height adjustable legs enable the height of the work surface to be raised to 740, 815, 890, 965 & 1040mm plus feet	
	Benefit	Accommodates various user heights and provides ergonomic benefits.

5	Feature	Adjustable levelling feet or lockable castors
	Adjustable levelling feet supplied as standard, lockable castors can be fitted if mobility is required.	
	Benefit	Flexible workspace solutions.

6	Feature	Adjustable and fixed shelving
	Height adjustable or fixed shelves can be fitted, providing storage space for frequently accessed items. Shelving can be open or enclosed. Made from 2mm mild steel.	
	Benefit	Accommodates items of various sizes and provides users with flexibility to position shelving at an ideal work height.

7	Feature	Undershelf light kit
	Fluorescent lighting can be fitted to the underside of shelves providing illuminated work areas.	
	Benefit	Improved working environment.

8	Feature	Power panels and boxes
	Power panels or boxes can be incorporated. Up to 4 sockets.	
	Benefit	Access to power at bench level for tools or equipment.

9	Feature	800kg weight capacity
	Industrial workbenches can support static loads of up to 800kg (UDL & with no castors), making them ideal for heavy duty industrial applications.	
	Benefit	High load capacity for industrial applications.

10	Feature	High Density Drawers & Cupboards
	Single drawer, BTCD.850.560 high density cabinets and cupboards can be used in conjunction with most workbenches.	
	Benefit	Improved space utilisation and offers a secure robust storage system for small parts, tools and equipment. A complete workspace solution.

11	Feature	Under shelf
	The under shelf provides additional strength and stability to the bench and can be positioned at the base or back of the workbench as required.	
	Benefit	Improved structural integrity and uncompromised flexibility.

12	Feature	Flat packed design
	Units are supplied flat packed.	
	Benefit	Easy to transport and disassemble.

THE CHOICE IS YOURS....

Configure your own Industrial workbench following 3 easy steps

Step 1 Select your workbench size (all dimensions in millimetres)

Step 2 Select your workbench top option

*IMPORTANT: Adds 40mm to the overall width and depth of these bench tops. So, 1240/1540/1840mm wide x 840mm deep.

Step 3 Select your accessory options

Accessory	Description
Height adjustable shelves	2mm steel shelf supported by adjustable posts and locking pins for storing light items.
Height adjustable legs	Varies the overall height of the workbench to 740, 815, 890, 965 & 1040mm.
Lockable castor kit	Allows the workbench to be mobile by two locking and two swivel castors.
Horizontal rear power panel	Power panels provide up to 4 locations for power sockets (GPO installation additional cost).
Monitor stand	Clamped and pivoting monitor arm for LCD screen mounting.
Single drawer unit	Store tools and equipment that need to be quickly accessible to your work area. Key lockable.
High Density cabinets	Utilise High Density storage cabinets for efficient and organised storage of frequently used items.
High Density cupboards	Lockable hinge door cupboard with adjustable shelf. Shelf load capacity 120kg.
Underbench shelf	Adds strength and stability and provides efficient storage area.
Shelf light kit	Mounted under adjustable shelf this fluorescent light makes working easier.
Heuer vice	This bench vice can be mounted, lifted and stowed under the workbench with additional accessories

STANDARD INDUSTRIAL WORKBENCH CONFIGURATIONS

Ordering:

To order a standard workbench configuration illustrated on this page specify the codes below. Most configurations are available in 1200mm, 1500mm and 1800mm widths and 700mm and 900mm heights. All Industrial Workbenches are 800mm deep* and flat packed unless otherwise requested. Check the compatible accessories on each configuration to see what options are available for that particular workbench.

BTCD.850.560 HIGH DENSITY CABINETS

Combining BOSCOTEK High Density Cabinets with BOSCOTEK Industrial Workbenches offers the most efficient use of available floor space by replacing the workbench leg as a structural support. This integrated drawer storage system then allows frequently used tools and small parts to be neatly organised, readily available and stored safely with the included anti-tilt mechanism. Choose from the configurations below or customise your own combination using the 675mm usable height and table at the bottom of this page.

Height	Width	Depth	Usable height
810mm	560mm	755mm	675mm

Levelling feet supplied as standard and increase the overall height of the cabinet to a minimum of 850mm. Levelling feet can be extended up to an additional 25mm of height adjustment for uneven surfaces. All dimensions are nominal.

BOSCOTEK™ High Density drawers are available in 5 heights and listed below.

Usable height = total sum of drawer front heights. Select any arrangement up to the total usable height.

Code	Front height	Usable dimensions
BTDD.75.560	75mm	50 (h) x 450 (w) x 600 (d)
BTDD.100.560	100mm	75 (h) x 450 (w) x 600 (d)
BTDD.150.560	150mm	125 (h) x 450 (w) x 600 (d)
BTDD.225.560	225mm	200 (h) x 450 (w) x 600 (d)
BTDD.300.560	300mm	275 (h) x 450 (w) x 600 (d)

BTCD.850.560 DRAWER CONFIGURATIONS

Ordering:

To order a drawer configuration illustrated on this pages, specify the part code indicated replacing the "X" with the drawer height required (75/100/150/225/300).

Partitioning sets ^

^ Partitioning sets use steel dividers unless otherwise specified. Aluminium (AL) dividers can be used in 75, 100 and 150mm drawers only. To specify aluminium dividers include "A" after drawer height e.g. PS.44.X-A.3.3.

Partitioning sets available with plastic dividers for drawer heights up to 150mm include "P" after drawer height e.g PS.46.75.X-P.3.3.

DRAWER OPTIONS

Steel drawer partitions

Steel drawer partitions run from front to rear of the drawer and are slotted at 25mm increments to allow dividers to interconnect.

* Specify 'X' = Drawer height: 75mm, 100mm, 150mm, 225mm, 300mm
Partition (P=PARTITION.HEIGHT.WIDTH)

Partition Code	Depth	Compatible Drawer Height
P.X.600	600mm	75, 100, 150, 225 and 300mm

Steel drawer trays

Drawer trays can be used to create removable drawer compartments. Trays can be removed whilst holding contents.

Trays

Tray Code	Size	Compatible Drawer
T.75.50.600	50mm (h) x 50mm (w)	BTCD.850.560
T.75.100.600	50mm (h) x 100mm (w)	BTCD.850.560

Tray dividers

Divider Code	Width	Compatible Tray
TD.75.50	50mm (h) tray divider	50mm
TD.75.100	100mm (h) tray divider	100mm

Dividers are used to segment the drawer into sub compartments. They run from left to right and interconnect with drawer sides and partitions. Available in plastic, aluminium and powdercoated steel.

*Specify 'X' = Drawer Height: 75mm, 100mm, 150mm, 225mm, 300mm
Powdercoated Steel dividers* (D=DIVIDER.HEIGHT.WIDTH)

Divider Code	Width	Compatible Drawer Height
D.X.75	75mm	75, 100, 150, 225 and 300mm
D.X.100	100mm	75, 100, 150, 225 and 300mm
D.X.150	150mm	75, 100, 150, 225 and 300mm
D.X.200	200mm	75, 100, 150, 225 and 300mm
D.X.225	225mm	75, 100, 150, 225 and 300mm
D.X.250	250mm	75, 100, 150, 225 and 300mm
D.X.300	300mm	75, 100, 150, 225 and 300mm
D.X.350	350mm	75, 100, 150, 225 and 300mm
D.X.450	450mm	75, 100, 150, 225 and 300mm

* Specify 'X' = Drawer height: 75mm, 100mm, 150mm

Aluminium dividers* ^ (D=DIVIDER.HEIGHT-ALUMINIUM.WIDTH)

Code	Width	Compatible Drawer Height
D.X-A.75	75mm	75, 100, and 150mm
D.X-A.100	100mm	75, 100, and 150mm
D.X-A.150	150mm	75, 100, and 150mm
D.X-A.200	200mm	75, 100, and 150mm
D.X-A.250	250mm	75, 100, and 150mm
D.X-A.350	350mm	75, 100, and 150mm
D.X-A.450	450mm	75, 100, and 150mm

* Specify 'X' = Drawer height: 75mm, 100mm, 150mm and 225mm

Blue Plastic dividers* ^ (D=DIVIDER.HEIGHT-PLASTIC.WIDTH)

Code	Width	Compatible Drawer Height
D.X-P.75	75mm	75, 100, and 150mm
D.X-P.100	100mm	75, 100, and 150mm
D.X-P.150	150mm	75, 100, and 150mm
D.X-P.200	200mm	150 and 225mm
D.X-P.225	225mm	75, 100, 150, 225 and 300mm

Plastic drawer bins

Plastic drawer bins are an economical drawer compartmentising option. Bins can be removed without disrupting contents.

Code	Description
B55.50.50	50mm (h) x 50mm (w) x 50mm (d) Suitable for 75mm high drawers
B55.100.50	50mm (h) x 100mm (w) x 50mm (d) Suitable for 75mm high drawers
B55.100.100	50mm (h) x 100mm (w) x 100mm (d) Suitable for 75mm high drawers
B55.200.100	50mm (h) x 200mm (w) x 100mm (d) Suitable for 75mm high drawers
B55.200.200	50mm (h) x 200mm (w) x 200mm (d) Suitable for 75mm high drawers

Foam inserts

Foam inserts provide storage for sensitive and delicate items. Segments can be removed to provide a secure housing for items.

Code	Description
BT.FOAM.30.500	30mm (h) x 500mm (w) x 300 (d) Pick 'n' Pluck foam sheet

Tool supports

Mild steel tool supports provide secure storage for tools such as spanners and irregular shaped items.

Code	Description
TS.40.455	Tool Support 40mm (h) x 455mm (w)
