WIRELESS

With a dedicated wireless link and a 3 hour Lithium battery, DE350 provides complete flexibility and unprecedented precision in observing the skin and capturing high precision images / videos.

45x MAGNIFICATION

Provides up to 15x native optical magnification and up to 45x digital magnification

MULTI-LAYER GLASS LENSES

Equipped with multi-layer glass lenses rather than plastic alternatives, thus delivering superb focal depth and crystal clear image quality.

INTEGRATED POLARIZER

High quality built-in polarizer with multiple levels of polarization.

Firefly DE350

Wireless Polarizing Digital Dermatoscope

- **Designed for Digital Epiluminescence Microscopy (DELM)**
- **Ideal for follicular examinations**
- **Wirelessly view microscopic images on your computer and capture them with ease**
- **Magnify objects up to 15x optically and up to 45x digitally**

This highly portable digital polarizing dermatoscope is ideal for healthcare professionals, scientists, teachers, students and cosmetics professionals where close-up skin inspection and recording is essential. Unlike older bulky digital dermatoscopes costing thousands of dollars, DE350 delivers advanced capabilities - and much more - at a small size and truly economical cost.

Better Vision Better Results

ADVANCED IMAGING TECHNOLOGY

Managing incoming light is a tremendous challenge in microscope design.

Reflections and lighting leaks can easily pollute the sensor, resulting in overexposure and washed-out images. Firefly effectively reduces overexposure by employing a proprietary lens assembly design and highly efficient image processing algorithms.

This highly efficient overexposure management technology enables Firefly to use ultra-bright LEDs to their fullest effect. Objects under observation are brightly illuminated without undesirable side effects.

Sophisticated image processing algorithms are ineffective without strong depth perception and a clear image. Firefly DE350 is equipped with multi-layer glass lenses rather than plastic alternatives, thus delivering superb focal depth and crystal clear images.

DE350

Technical Details

Magnification	Native Optical: 15x Digital: 45x
Sensor Resolution	720 x 480
Lens Assembly	Dual Lenses 3-Layer Glass, 650nm cutoff Integrated Polarizer
Video	Format: YUY2 Frame rate: Up to 30 FPS
Video/Image Properties	Color: Hue, Saturation Exposure: Brightness, Contrast Image: Sharpness, Gamma
Image Files	JPG/ AVI / BMP
Lighting	8 Ultra-Bright LEDs Fully adjustable brightness
Battery	Built-in 850mAH
Wireless Link	4 Channels
Dimensions	13cm x 3.6cm x 4cm
Interface	USB 2.0 for Wireless Receiver
Accessories	Includes Desk Stand Soft Storage Bag
Software	Scalable Window, Zoom, Freeze, Resolution, Rotate, Flip Automatic/Manual white balance
Operating Systems	Windows 7, 8, 10 and Mac OS-X 10.4 or higher
Warranty	1 Year Limited Hardware Warranty

POWERFUL MAGNIFICATION AND POLARIZATION

DE350 empowers healthcare professionals with a whole new perspective. Its advanced technology can quickly provide a high resolution image into even the smallest areas of interest.

SOPHISTICATED SOFTWARE

The DE350 is controlled directly with the FireflyPro professional image processing software which is bundled with the microscope. This state-of-the-art software enables users to capture, store, recall, and view images and videos in real time. Its intuitive interface empowers users to get right to work anytime, anywhere.

INCLUDES WIRELESS RECEIVER
