- No need for wet contact times and starts to work in 15 seconds.
- The Reactive Barrier Technology (RBT), creates a barrier so S-7XTRA stays active between cleans for ongoing lasting protection, continuing to kill once dried.
- pH Neutral and food safe.
- No rinsing required. Free from harmful residues.
- Contains multi-actives to reduce the chance of pathogens building resistance.
- Non-Toxic, Non-Flammable, Non-corrosive and safe to use on any material or surface—including fabrics, plastics, wood, glass, soft metals, stainless steel & medical equipment.

**Bringing simplicity and peace of mind to your infection prevention and cleaning protocols.**
