

Forklift Fork Extensions / Forklift Slippers / Fork Tynes

These quality fork extensions are made using heavy duty steel construction. They are designed to help you lift longer loads safely.

Features

- Steel restraining straps fasten the slippers to the standard forks preventing them from sliding off during use.
- The tips of the fork extensions are tapered for easy insertion of the pallet.
- Powder coated safety yellow for hi visibility and extra protection from wear and tear.
- Heavy duty and durable welded Q235 carbon structural steel, 8mm thick.
- Easy installation; requires no tools.
- Sold as a set.
