Average Speed:
100-150 Products Per Hour

Function:
This high-speed sheet cutting model is perfect for slicing frozen or dry sheet or bar products as well as biscotti loafs. The machine features a blade set cutting both the x and y axis slices in each blade drop. The machine can be fitted to cut in or out of the box/pan and is best for bakeries slicing 100-150 products per hour.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time
- Can be operated efficiently by one operator
- Multiple blades increase cycle speed by making both x and y axis cuts in one pass
- Fast change over from one blade set to another to slice a different product or portion size
- Custom triangle blade sets available to slice unique triangle portions
- Reliable and durable equipment backed by manufacturer's warranty

Multi-Blade Sheet Product Slicing

Weight: 300 lbs (227 kg)

Power:

Compressed Air 9 CFM @ 90 PSI

Product Size Ranges:

18 in (56 cm) x 28 in (71 cm) Sheet
Up To 4 in (10.1 cm) Tall

Portion Size Ranges

Larger Than 0.5 in (1.3 cm)

FoodTools machines are manufactured with heavy duty anodized aluminum, stainless steel, and ultra-high molecular weight plastic. The equipment is designed for complete wash down requirements in production facilities.

Specifications are subject to change and are dependent on the product portioned or additional accessories to standard equipment.
