Medisafe Plus 420 Vaccine and Medical Fridge QCPP cold chain accredited GEMS rated M2 Climate class 3 24 month warranty AQ Box cloud temperature monitoring with SMS and email alerts of temperature breach or loss of connectivity on a new and updated dashboard \*Charges are applicable after the initial 12 month term

## Description

Medisafe Plus 420 Vaccine and Medical Fridge Key Features • QCPP cold chain accredited • New bluetooth enabled controller preconfigured to hold temperature from +2°C to +8°C in line with national 'Strive for 5' storage guidelines • Dual temperature probes for both cabinet temperature and simulated vaccine temperature • AQ Box cloud temperature monitoring with SMS and email alerts of temperature breach or loss of connectivity on a new and updated dashboard • Audible and visual alarms • Adjustable shelves • Lockable door • Low energy consumption • Low noise output • Dedicated technical service line The AQ Box Cloud Temperature Monitoring System The AQ Box is an online temperature monitoring and alerting device which automatically records and sends temperature data to the cloud for easy viewing and reporting via a portal. Users log in with their unique username and password to easily view and download or print temperature reports for ease of compliance with

<https://www.commercialfridgefreezer.com.au/medisafe-plus-420-vaccine-and-medical-fridge/>

regulatory requirements. Temperature reports can be scheduled at regular intervals and include Minimum/Maximum Temperatures and raw data exports. The AQ Box is battery operated, once turned on it will continue to log temperatures regardless of site power. This ensures uninterrupted temperature recording during a power outage of any length. The AQ Box ensures that expensive vaccines are protected, your data is secure and that you are meeting the national Australian Government Department of Health's 'Strive for 5' guidelines. Dual Temperature Probes The AQ Box is unlike other monitoring devices on the market which measure the cabinet temperature only. The AQ Box is uniquely equipped with two temperature probes providing accurate measurements of both the cabinet temperature and a simulated product temperature. Remote Access Temperature data can be accessed via the AQ Box portal on any web-enabled smartphone, tablet or computer. Each unit comes with 12 months' access to the cloud portal\*. Temperature breaches and power failure notifications are sent in real time via text and email, and are customisable by the user. \*Charges are applicable after the initial 12 month term

## Additional Information

Brand	Avem Quirks Medisafe
Model	Medisafe Plus 420
Warranty	24 months (parts and labour)
Temperature Operating Range C	+2°C to +8°C
Temperature Display / Control	Digital
Refrigerant	R290
