

## GUTHRIE SMITH FRAMES

These are standard Guthrie Smith type frames and/ or packages. As a floor mounting configuration, it overcomes the need to fix to walls/ceilings with all the attendant problems. There are three standard components that can be mixed & matched as required.

Customised  
as required!

## STANDARD CONFIGURATION

- Mesh Frame Top / Side can be used for both top and/or side
- Mesh Frame End and 1500mm x 1500mm square mesh starting approx 500mm from floor height
  - Can be used at either or both ends
- Frame end support without mesh
  - Can be used at either or both ends
