

# Gutter Master® 1020 PRO

240 VOLT SYSTEM

STEEL FRAME ON CASTORS

2.5 INCH INLET & VACUUM HOSE

WET & DRY CAPABILITIES

## Gutter Master® 1020 PRO Gutter Vacuum System

The new Gutter Master® 1020 Pro gutter cleaning System is designed for the user who is looking for the most compact and powerful electric vacuum cleaner system to operate from a 240 volt power socket. Designed to provide safe cleaning of gutter channel from the ground using the optional supply ACS Gutter Master® carbon fiber vacuum poles kit or extend the vacuum hose length to deliver services from a ladder.

Equipped with a triple Ametek vacuum motor head the Gutter Master® 1020 Pro will provide the performance you require to get the job done quickly. The reverse air flow system allows you to clean the filter first before emptying the waste container, no more removing the filter to clean it. The Gutter Master® 1020 Pro vacuum motor head is supplied with a 1 year warranty.
