

Airless Line Marking Machines

LT-6325L – Single Gun & LT-6335L Duel Gun

These medium sized line-marking push machines are ideal for sporting fields and courts (Football, Cricket, Netball, Tennis, Basketball, etc.), Car Parks, Pavement and much more.

Easy maneuverability makes turns and stencil painting quick and easy.

The machines have been adapted to comply with stringent safety standards and to maximize ease of operation.

Improved framework allows for a bead dispenser which enables the application of reflective beads in conjunction with the painting process.

Quick release mechanism and 15 metre hose allows for stress-free Stencil painting and elevated gun mounts provides for wider line marking as required.

Technical data:

Pressure Control: Digital

Motor: 5.5HP

Maximum pumping capacity: 2.5 litres per minute (Single Gun)
5.0 litres per minute (Dual Gun)

Maximum tip size: 0.025" - Single Gun / 0.023" - Dual Gun

Maximum Pressure: 3045psi

Working Pressure: 1740psi
