# gMotio connect

Experience the gynaecological exam of the future with the brand new gMotio Connect. This revolutionary chair combines the excellence of the gMotio and advanced features including an integrated colposcope and a screen. This is smoothly integrated to achieve seamless connectivity and precise display, for a comfortable, effective gynaecological exam. Rediscover the medical exam with the gMotio Connect, where technology and precision come together to provide a holistic, modern solution.

## EQUALITY OF TREATMENT

Make it easier for your patients with reduced mobility:

- › Lowers down to 57 cm from the ground
- › All the patient's movements are electrically supported
- › Electric motion stirrups (depending on the model)
- › Exam displayed on the screen to increase communication between the doctor and the patient
- › Illness evolution can be monitored by comparing pre- and post-treatment images.

## EFFICIENCY

Ensure exams run smoothly with:

- › Integrated leg rest extension for the lying position (optional)
- › 3 programmable positions (9 optional)
- › Intuitive control and patient welcoming position already configured
- › Lighting integrated in the chair (depending on the model)
- › Side rails fitted as standard

## ERGONOMICS

Ensure the best position for you and your patient at all times.

- › Colposcope with articulated arm folds away on the side of the chair
- › Pivoting screen
- › Precise seating cut and foam density
- › Adjustable height from 57 to 118.5 cm (with tilt)
- › Precise, adjustable tilt for easier speculum handling
- › Controls adequately located on the backrest and at the feet
- › Integrated retractable wheels for short distances

## SAFETY

Easy-to-clean chair

- › Seamless seating
- › Collapsible seating and backrest to make cleaning easier
- › Structure is cataphoresis-coated for a long-lasting and hygienic product
- › Detachable ABS tray
- › Wheels are electrically activated via maintained contact

Secure examinations

- › Safety sensors
- › Safety battery
- › Dual control

# Integrated colposcope: unparalleled precision and clarity

Thanks to gMotio Connect, practitioners can carry out gynaecological exams, ultrasounds and colposcopies without changing chairs, for maximum efficiency and comfort for the patient and the practitioner.

It integrates cutting-edge technology with an integrated digital colposcope:

- 1 **21" pivoting HD screen** to increase communication between the doctor and the patient
- 2 **Automatic and manual adjustment** (250-300 mm) + Freeze mode
- 3 **Ergonomic control panel** for easy control of ZOOM, adjustment, shot
- 4 **Optical zoom x23**
- 5 CMOS Full HD 2.3Mpx camera  
Visual angle 57° (telephoto end)  
3.2° (wide end)
- 6 **Ultra white LED with adjustable brightness** for top-quality colours (over 20,000 lux)
- 7 **Anti-Glare system** (polarised filter) to remove glare in the examined area

The **USB connection** can be used to transfer images to a computer for **backup, processing and printing** (Software available)

**Green and negative electronic filters** for a perfect visualisation of pathological subepithelial vessels and epithelial structures

The **colposcope with articulated arm** folds away on the side of the chair to avoid any interference with other exams

# Configure your chair in 2 steps

1

Select your gynaecological chair model
