A SMALL, LIGHT AND COMPACTLY DESIGNED SCANNER

Vatech VSP is small and light so it can be set up in a small-sized dental clinic efficiently.

As a high-end device, Vatech VSP, has a 4-inch LCD touch screen which provides the largest image preview. The touchscreen offers quick and easy access to features.

Moreover, the ethernet cable enables rapid image transfer from scanner to pc. We developed Vatech VSP as a simple, fast, and easy way to diagnose a patient on chairside.
