## XT510

CERTIFIED

### CEMETERIAL

Zallys XT510 is an electric hydraulic lifter designed to be used in cemeteries to rise and bury coffins up to 410 cm (161 in) high, capable to load and lift up to 350 kg (771 lb) including the operator and the casket.

It is equipped with 4 stabilizing feet, to level its position and improve the stability during operations, and with a wired remote control.

The fixed loading platform (without electric controls) is equipped with rollers, to ease the frontal and lateral manual sliding of the coffin.
