

GZ Series Double Column Fully Automatic Band saws

GZ4232

GZ4240

Mainly used for cutting various ferrous metal and non-ferrous metal. The structure of the machine tool is reasonable with stable and reliable performance and high precision. It is ideal equipment for material sizing of medium/small lot.

Standard Equipment:

- Power blade cleaning brush
- Working light
- Automatic feeding
- One piece of bi-metal saw blade
- One set of tools with tool box
- NC control

Optional Equipment:

- Roller table 2M long
- Variable vise pressure(cut tubes)
- Automatic chip conveyor
- Inverter
- Hydraulic blade tension
