

Introducing Laser Therapy

Discover the most innovative therapeutic device for every creature, great or small. Companion® offers a fast, drug-free, non-surgical and non-invasive pain relief solution for your patients across acute to chronic injuries, wounds and arthritis.

Dosing

Companion® therapy lasers are designed to provide you with the right dose of laser energy for every condition, every patient, every time. Protocols are built on years of clinical research to provide you with confidence and consistency.

- **SmartCoat® Plus Technology**
Build custom protocols based on individual patients
- **Empower IQ™**
Smart delivery system provides dosing guidance
- **Advanced Species-Specific Protocols**
Canine, feline, equine & exotics

Delivery

Deliver effective treatments for every condition with application-specific treatment attachments, including the patented Deep Tissue Applicator.

Benefits of the Deep Tissue Applicator:

- **Compression** gets you closer to target tissue
- **Collimation** reduces energy loss
- **Refractive Index** minimises light lost in transmission
- **Reflection** light loss is significantly reduced
- **Soft Tissue Work** is achieved during treatment

Dependability

The combination of optimal dosing and delivery solutions provides you with consistent, replicable outcomes.

- **Patient Tracker**
Easily save and repeat treatments
- **Flexible Architecture**
Upgrade and update-able
- **Veterinary-Specific**
Built for durability with your needs in mind
- **Innovative Add-Ons**
Optional Companion Nanotherapy Bundle for oncology treatment

Companion® Therapy Lasers

CTS-DUO

Companion's premium therapy laser

- Patient Tracker
- Intuitive Interface
- Perfect Protocol™
- SmartCoat® Technology
- Species-Specific Protocols
- Enhanced Treatment Protocols
- Built-in videos
- Optional Companion Nanotherapy Bundle

Includes:

- 4 Year Warranty
- Empower IQ, 5 Attachments
- NEW XL Deep Tissue Applicator
- Backup Fiber
- Jump Start Program
- Mobility Kit

Power: 0.5 - 25 watts

Modes: CW or Pulsed

Wavelengths: 980/810 nm

Weight: 15 lbs

Laser Type: Class IV

CTX-IQ

Companion's flagship therapy laser

- Patient Tracker
- Intuitive Interface
- Perfect Protocol™
- SmartCoat® Technology
- Species-Specific Protocols
- Built-in videos
- Battery operation

Includes:

- 4 Year Warranty
- Empower IQ, 4 Attachments
- Backup Fiber
- Jump Start Program
- Mobility Kit

Power: 0.5 - 15 watts

Modes: CW or Pulsed

Wavelengths: 980/810 nm

Weight: 9 lbs

Laser Type: Class IV

CTX

Superior outcomes, affordable entry point

- Intuitive Interface
- Perfect Protocol™
- SmartCoat® Technology
- Species-Specific Protocols
- Built-in videos
- Battery operation

Includes:

- 3 Year Warranty
- Empower DS, 4 Attachments
- Backup Fiber
- Standard Marketing Kit
- Mobile Case

Power: 0.5 - 15 watts

Modes: CW or Pulsed

Wavelengths: 980/810 nm

Weight: 8.5 lbs

Laser Type: Class IV
