

SWEEP, SCRUB AND DRY

HDS90

RIDE-ON POWER SCRUBBER

The Conquest HDS90 leads the pack as the largest and most powerful machine of the range, designed for deep cleaning of all large industrial and commercial areas.

Under the robust body of the Conquest HDS90 there are four scrubbing brushes with ultra high adjustable pressure, and a pre-sweep function to collect debris. This allows the machine to thoroughly clean large areas in a single pass, saving operators the need to pre-sweep manually before scrubbing.

With large tanks, exceptional maneuverability and sideways moving brush decks the Conquest HDS90 delivers maximum productivity while being easy to operate and maintain. A superb combination of reliability, strength and size that only Conquest could achieve.

THE CLEVER WAY TO CLEAN

FEATURES

- Cylindrical broom provides pre-sweep, collecting any debris into a waste hopper as you are scrubbing, resulting in extremely clean floors
- At the flick of a switch the entire scrub deck can be moved sideways to assist with close cleaning up against walls and fixtures
- Easy to use with a clearly laid out control panel to give the operator fingertip control of all functions
- Fitted with front and rear lights to give full visibility even when cleaning at night or poorly lit areas
- Up to 180kg of down pressure cleans away the most stubborn dirt
- Corrosion resistant waste hopper collects all the debris from the sweep broom
- Puncture proof and non marking tires are designed to protect the most sensitive surfaces
- Robust design able to withstand the harshest environments and treatment

SPECIFICATIONS	HDS90
Cleaning Width	1460mm scrub path
Solution/Recover Tank Capacity	360/380L
Scrub Head Motor	1125W
Brush Speed	220RPM
Brush Pressure	130-180Kg
Power Supply	36V Heavy duty traction battery
Battery Charger	Automatic battery charger
Weight	1100kg
Machine Dimensions	2250 (L) x 1340 (W) x 1880 (H)mm
