

BARIATRIC TILTING PODIATRY CHAIR

An extremely strong and rigid chair with lifting capacity of 320kgs designed to support heavy and bariatric patients for podiatry and other lower limb procedures.

The backrest is electrically adjustable from horizontal to +85° and has fold-down armrests which can be folded back for patient transfer or even removed if required for some procedures.

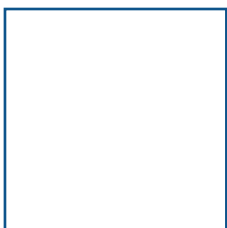

KEY BENEFITS

- Electric operation of height, Trendelenburg tilt and backrest angle
- Backrest adjustment from horizontal to +85° for sitting position
- The foot sections are manually adjustable from +20° to +90°
- The heel pad can be extended to position the foot for various procedures
- Retractable wheel system provides easy positioning of the chair
- Low patient transfer height of 49cm (19")

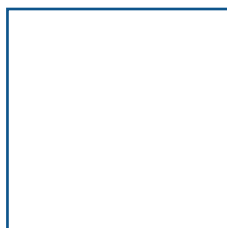

- Lifetime frame guarantee
- 5 year parts guarantee
- 16 years average lifespan
