Gondola Shelving

- Gondola Shelving is mainly used in retail stores as it is an ideal way of displaying your products, it's popular in grocery, hardware and pharmacy stores.
- The shelving is available in a variety of heights, widths and depth configurations. The shelving can be accessorised in many ways including fully adjustable shelves with a provision of peg hooks for any hanging stock.

Innovative Design Efficient Installation Quality Solutions

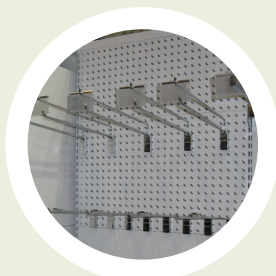

Gondola Shelving can be installed with either single or double bays, the systems can be tailored to your needs providing an effective and economical solution for displaying your products.

The shelving comes in a powder coat finish, with a multiple colours to choose from either a black, white or cream finish. The premium powder coat finish creates a pleasant retail environment and no sharp edges.

All shelves are fully adjustable in height increments of 50mm. With each shelf level having a weight limit of 50kgs.

Hooks can be inserted into the shelving system to allow for hanging items to be displayed.

Gondola Shelving combined with plastic parts bins is a great way to store any small parts and components.
