

Safety Bollard- Low Profile Guard Warehouse Equipment Barrier- 228mm High

Protect costly machines with the low-profile safety guard. If you are looking to protect pallet racking and costly machines inside your industry, then the low-profile safety guard is a particularly good choice. They will help in the superior protection of the facility and its equipment. They come out with safety yellow coating over the top so that they are visible clearly.

Features

- The hi-vis bright yellow colour helps to guide the semi-trailer/truck drivers to back up onto loading docks.
- Powder coated for extra protection from wear and tear.
- The product is made from heavy-duty steel for great durability.
- The floor anchoring provides stability to the steel frame.
- Suitable for both indoor & outdoor use.
- Pre-drilled mounting plate.
- Black Hazard tape.
