

DISHWASHING LIQUID

DESCRIPTION

A premium quality, non-dangerous, machine dishwasher liquid for use in commercial dishwashing machines.

BENEFITS

- ✓ Non-caustic
- ✓ Contains corrosion inhibitors making it suitable for washing aluminium pots and pans
- ✓ Contains high levels of water softening agents to prevent scale forming in the dishwasher or tank
- ✓ Highly concentrated giving outstanding economy
- ✓ Non-foaming
- ✓ Ideal for use on Pan Washers where plastic bed pans are in use
- ✓ Can also be used as a CIP (Clean-In-Place) product when a non-caustic product is required

APPLICATION

For use in commercial dish and glasswashers with a feeder system attached.

DIRECTIONS FOR USE

Automatically dispensed by a commercial dishwasher feeder.

Simply change the drum when empty.

MACHINE DISHWASHER

Use 1.5-2.0g/L

CIP

1-5% depending on type and level of soiling, contact time and agitation.

Must be rinsed from all contact surfaces using fresh water.
