

All Purpose Organic Disinfectant Concentrate 1 Litre

Leave all surfaces smelling fresh, clean and germ free

Desolve disinfect is our most popular grade for disinfectant. The high-quality ingredients in this disinfectant means that it is great for cleaning as you simply spray or mop onto any surface and within seconds it starts to work leaving no residue behind. You can use Desolve Disinfect for a variety of applications such as cleaning, disinfecting, stainless, all floor types, removes mould, cleans glass, and much more. Is miscible in water which means you can dilute it down as required

PERFECT SOLUTION FOR:

- **All types of surfaces**
- **Lingering odour**
- **Germ elimination**
- **Replacing chemicals**
- **Reducing risk of infection**

On all types of surfaces, micro-organisms create offensive odours, spread germs and compromise hygiene standards. Traditional cleaning methods and masking agents are not enough. Immediately after floors are cleaned harmful micro-organisms return and grow at a rapid rate. Odours prevail and the smell increases even after extensive cleaning

BENEFITS

- Rapid removal of odours by treating the root cause
- Removes germs on all exposed surfaces
- Effective against mould, fungi and Volatile Organic Compounds including Ammonia found in cleaning chemicals
- Stops microbes reforming by eliminating the food source

1litre concentrate makes 200 litres
