

## Steerable Load Skates- 3, 6 Or 12T Capacity

Industrial Steerable Moving Skate- available in 3, 6 or 12ton

### Features

- Shifting Skates are used wherever heavy objects need to be moved.
- The skates are maintenance free and are fitted with handles for ease of carrying and positioning.
- Loads can be lifted with either a roller crowbar or a jack which allows the skate to be easily positioned.
- The platforms of the skates are fitted with a rubber surface which helps stability and protects objects being moved.
- Loads can be lifted with either a roller crowbar or a jack which allows the skate to be easily positioned.
- This Steerable skate incorporates a 1-meter draw-bar and a platform that swivels on a thrust bearing allowing movement around bends.
- The large diameter sealed nylon rollers ensure ease of movement and spread the load, protecting floors damage by high point load points.
