

ICETEAM CUBO & Vision 4

CONTINUOUS
CHURNING
GELATO
MACHINES

Key Features

- Always Fresh Continuous Churning
- Compact Countertop Machine reliable and easy to use
- Ideal for restaurants, bars, coffee shops and foodservice
- Short Production Time - Approx 10mins
- Makes Gelato, Ice Cream, Sorbet and ACAI
- It freeze mixes of gelato or sorbet by combining cooling and stirring
- Night Mode - Can use auto timer for storage
- Storage cycle will keep the temperature in the cylinder like a refrigerator
- The machine is able to maintain the product structure for long periods
- Possible to refill the cylinder with fresh liquid mix as the product is sold

Italian Gelato

Soft Ice Cream

Pastry Gastronomy

SMART board

In-house software, with high free memory slots for remote update.

Inclusions

Allows to add solid ingredients when freezing.

Visible production

Makes production a real show in its more classical "stir and stick" process.

CUBo 2i: the motor beater inverter varies the speed -even during the cycle- depending on the type of mix introduced

Always fresh Gelato

CUBo 2 allows to freeze mixes of gelato or sorbet, by combining cooling and stirring, until the typical semi-solid consistency of a traditional gelato is reached. Besides, the machine is able to maintain the product structure for an indefinite time, directly in the batch freezer cylinder.

Mix refill

This function allows to refill the cylinder with fresh liquid mix as the product is sold. During the storage mode, the user simply needs to add the liquid mix and restart the freezing process. The machine will reactivate the program to bring the gelato back to the original consistency, taking a 60% shorter freezing time compared to the first batch. Then, the machine will automatically go to storage mode.

Night mode

This program, that can be set by using a timer, allows to turn off automatically any batch freezing/ storage cycle so to keep the temperature in the cylinder like a refrigerator. This will ensure that the gelato mix stays in a positive temperature during the night, without any hygienic or health risks.

Specification

Model	CUBO 2i	VISION 4
Capacity Per Hour	13L	2 x 13L
Machine Style	Countertop	Floorstanding
Compressor/Cooling	Single/Air cooled	Double/Air cooled
Flavours/Tank Capacity	1 / 2.2kg	2 / 2.2kg
Net Weight (kg)	54	138
W x D x H (cm)	49 x 54 x 47	72 x 62 x 96
Power	10 AMP	10 AMP
Amperage	5A	7A
Watts	1100W	1500W

The best gelato is freshly churned. Up to now only gelato makers had the chance to taste it that way! With continuous churning this privilege is finally available to everyone.

Refrigerant Gas Type	R452a	R452a
Overrun - Upto	20-40%	
Manufacturer	Italian	
Warranty	13 Months
