

# Anton Paar Lab Favourites Bundle #3 - Pharma and Cosmetic

For any measurement system, the test data generated, along with the associated meta-data, is your most valuable asset. It must be collected, processed and stored in accordance with ALCOA+ data integrity principles.

The Anton Paar Connect Pharma software package guarantees data integrity through its advanced user management functions, electronic signature settings, and secure date/time stamped audit trail. Buy a DMA 1001 now and get a full year of AP Connect Pharma Licence.
