

Transport Chair | VSM-30

Why Buy?

Patient transport is a breeze with the VSM-30 transport chair. It's powerful central drive system and intuitive, touch-sensitive control make it exceptionally easy to use. The lightest push sends the chair forward; a gentle pull slows it down. Nimble yet strong, the chair turns on a dime while providing comfort and stability for larger patients. Carer strains are prevented as no physical effort is required – this chair does the work for you.

Application

Ideal for moving patients long distances without effort.

Key Benefits

- **Ergonomics & intuitive:** Drive effortlessly in any direction with only the slightest of touch, paired with perfect positioning of the drive controls for ease of use.
- **Powerful movement:** A rotating electric drive wheel provides excellent traction, while center steering makes patient transport easier over longer distances.
- **Easy access:** The large footplates offer generous support to your patients and lift quickly for clear egress.
- **Ample space:** A large rear storage shelf fits up to a cabin sized bag with optional add-ons such as defib tray and document storage.
