Datacard® EZ-ID

Out-of-the-box ID Solution

HIGH-QUALITY IDs IN MINUTES

Perfect for basic ID programs

The Datacard EZ-ID System puts everything you need to issue high-resolution, colour photo ID cards in one simple, quick-to-deploy package. The Datacard® SD160™ card printer, Datacard® TruCredential™ Software, webcam and supplies offer everything needed to create a custom ID program — without the high cost or complexity.

What's in the Box?

› Datacard® SD160™ Card Printer
› Datacard® TruCredential™ Software

› YMCKFT UV print ribbon
› Logitech C920 HD Pro Webcam

› 250 blank white PVC cards (with magnetic stripe when appropriate)

No-hassle setup

Intuitive guides make implementation a breeze for even the most non-tech-savvy.

Add affordable security where you need it

The basic EZ-ID package offers UV printing capability, giving you an affordable way to add a hidden security feature.

Complete solution: proven technology and expertise

Entrust Datacard created the EZ-Card program to make it easy to implement and manage an ID card program. Proven hardware and software deliver reliable performance — and unmatched expertise is there when you need it.

Easy-to-Use, Complete Solution

1 Design Your Card

› Powerful, flexible and user-friendly
› Easy set-up through the QuickStart Wizard or the ability to simply design a card from beginning to end
› Create card layout and designs
› Capture and manage data
› Add logos and other graphics
› Utilise intuitive point-and-click navigation
› Add bar codes & magnetic stripe data (optional)
› Easily upgrade when your needs grow

2 Take Picture

› Web camera captures a photo with the simple click of the mouse
› Take pictures quickly and easily
› Attaches easily to computer monitor with flexible clip
› Create crisp images at 1.3 megapixels

3 Click "Print"

› One-sided (simplex), high-resolution card printing
› Edge-to-edge printing
› Colour, monochrome and UV printing capabilities
› Rewrite capability (special cards required)
› Alphanumeric text, logos and digitised signatures; 1D/2D bar code images
› Automatic 100-card input hopper
› Intuitive LCD panel with soft-touch controls
› Optional 200-card input hopper and 100-card output hopper (must be ordered separately)

CardServ's local support, combined with **Entrust Datacard's** 50 years experience in over 150 countries, offers you:

› A local support team with over 80 years experience
› Online and phone support options

› 24 month product warranties
› Instant firmware updates (just ask us how)
