

Cardboard Shredder

320mm

#62106

**Protective Void
Fill**

**Fast Cutting
Speed**

**Reduced Packaging
Costs**

**Waste Cardboard
Reuse**

The Cardboard Shredder converts waste cardboard into versatile void fill, allowing your business to replace expensive packaging materials such as bubble wrap, packing peanuts, plastic chips and air pillows. It's the ideal solution for manufacturers, warehouses, e-commerce businesses and distribution centres looking to reduce waste while improving packing efficiency.

Features

- Converts waste cardboard into protective void fill
- Reduces the ongoing cost of packaging consumables
- Minimises cardboard waste sent to landfill
- Produces packaging material on demand
- Improves sustainability and reduces environmental impact
- Provides excellent protection for fragile products during transit
- Dimensions D x W x H: 660 x 730 x 970 mm
- Weight: 143 kg
