# MONITOR 3710R

The Monitor 3710RX Spider Lift is ideal for work in confined and congested areas.

It offers exceptional up and over outreach capability. This feature is ideal for work in confined and congested areas. The increased capacity of 250kg also adds to its heavy-duty versatility. This Spider Lift is the first choice for tougher commercial applications.

At an incredibly narrow width of only 1.1m, the 3710RX is perfectly suited to indoor applications. Weighing only 5.76 t, it is safe to use on load sensitive flooring.

Non-marking rubber tracks and a light footprint ensure there is no damage on good surfaces.

Battery power + compact dimensions + light weight + gentle non-marking rubber tracks = the perfect indoor spider lift!
