## TREATMENT RANGE

# SX2 Treatment Table – Two Section

**Ideal for Physiotherapy, Massage, Acupuncture, General Treatments and Osteopathy techniques**

The SX2 Treatment Table is a high quality table with less moving parts making them sturdier and easier to maintain.

The X-frame design offers a sturdy work surface with no longitudinal movement when raised from a low 490mm to 950mm working height meaning the table takes up less operational space than any other table similar to their size in the market.

The adjustable head section includes a nose hole and can be slightly lowered which enables the prone client to fully relax the neck muscles giving optimum comfort.

### FEATURES

Electric height adjustment with footswitch

X-Frame lift action minimises pinch & crush points

Heavy duty independently lockable castors

Durable powder coated rust resistant frame

High quality anti-microbial vinyl & CFC free foam

Nose hole in head section as standard

Australian designed & manufactured
