

EMU

- Standing / Walking Machine
- **175kg capacity**
- Electric lifting and leg opening control
- Rechargeable battery supplied with separate charger
- Emu stander facilitates the transfer from bedside to chair, commode or toilet
- The foot plate can be pivoted upward behind the knee pad to convert the Emu stander into a walker for patients who are weight bearing and require minimal assistance
- The addition of rehab arms convert the Emu into a rehab walker with full patient support
- Ideal for hospital and aged care facilities
- 2 year warranty
- Variety of sling options available

BILBY

- Lightweight, Compact Standing Transfer Hoist
- **200kg capacity**
- Electric lifting and leg opening control
- Rechargeable battery supplied with separate charger
- Shorter legs for greater manoeuvrability in confined spaces
- Deep knee pad provides maximum comfort and eliminates slippage
- High lift to stand resident upright on foot plate
- Ideal for hospital and aged care facilities
- 2 year warranty
- Variety of sling options available
