StockMaster Omni is an Auto-Safe and easy to use mobile, all terrain platform ladder.

StockMaster Omni is a safe, portable and strong mobile work platform ladder. Whether you need a platform ladder for indoors or out, **Omni is the platform ladder you can use everywhere.**

Featuring two large wheels and a single control for braking and steering, Omni moves easily in the open position without lifting or dragging. Simply take up the control and move it. Release the control, and Omni is automatically in safe mode with no risk of moving as you commence to climb. **All instability associated with designs that use spring loaded castors is eliminated**, and there is no movement as you work on the platform.

Omni goes everywhere!

Take Omni from place to place on the worksite with no more lifting or carrying. Indoors or outdoors simply tow it behind you, - over concrete, gravel or grass and use your free hand for your tool box, or whatever else you need. Fold it, and transport it in your Ute or on Roof Racks and when your not using it, simply hang it up, or store it flat against a wall.

StockMaster **Omni Pro** also features a Tool Tray and easy-use Safety Gate at the platform entry. Simply step onto the platform and open or close the gate without turning around and you are protected from accidentally stepping off the front of the platform.

StockMaster Omni Platform Ladders . . .
