

Product # DCFT-BKM

Mechanical Dual Continuous Feed Toaster

DCFT-BKM is a new member of Prince Castle Dual Continuous Feed Toaster family. Generated DCFT family merits, DCFT-BKM provides operators with perfect bun caramelization with unique stainless steel metal belt.

Simplified design saves up to 30% less energy usage than competitor toasters; Equipped with separate bun compression controls for crown and heel, the toaster can toast variety of sizes and types of buns without a decrease in performance or product quality. The fix speed toaster is capable of toasting up to 260 buns per hour.

Product Features

- Perfect, “fresh out of the oven” caramelization with fix speed toasting - up to 260 buns per hour.
- One sided compression control for simple operation.
- Five compression settings to accommodate various buns size.
- Adjustable thermostat provides precise toasting - up to 320°C.
- Durable stainless steel conveyors eliminate the need for replacement belts, reducing the overall cost of operation.
- Teflon sheet eliminates sticking and is easy to access and clean.
- Small footprint (25.25” x 8.5”) saves space and enables the DCFT-BKM to fit into various store designs/kitchen layouts.

Mechanical Dual Continuous Feed Toaster
