

Hydraulic Scissor Lift Table

1000kg Capacity / 1.36m Lift

This hydraulic lift table features a large deck size, designed to handle oddly shaped or oversized items easily.

Scissor lift tables make ideal workbenches for use alongside conveyors, feeding hoppers, extruders, process and production equipment, perfect for vet practices, especially for operations involving larger animals. The hydraulic foot pump easily lifts and positions loads to reduce the risk of injury associated with lifting, reaching and bending.

Features

- Hand Release lever to lower the table to preferred height.
- Easy to use foot pump allows user to lift to desired height.
- Manual Push, Precision hydraulic foot pump and Quick release system.
- Chrome-plated tubular steel push handle is ergonomically positioned at 38"H
- Heavy duty mechanism, components, bearings and hydraulic cylinders.
- Large diameter, easy-rolling wheels fitted with a brake to safely park the unit.
- Safety overload valve for protection with a control to limit lowering speed.
- Scissor lift table features safety restraint bars that lock the table in the raised position.
- Powder coated safety yellow for hi visibility and extra protection from wear and tear.
- Rolls smoothly on 5" mold-on polyurethane casters (2 Lockable swivel with brakes and 2 rigid).
- Polyurethane wheels: are mainly used for floors that are delicate like marble, floor boards or tiles.

Specifications

Model		MTTG100
Capacity	(kg)	1000
Min Table Height	(mm)	360
Max Table Height	(mm)	1360
Table Dimensions	(mm)	2035X750

Castor Wheels	(mm)	Ø180x50 Ø80x40
Handle Height from Ground	(mm)	1000
Foot Pumps to Max Height	(qty)	<200
Net Weight	(kg)	198
