

Drum Lifter - Double Parrot Beak Forklift Attachment - 720kg Capacity

The MFDDG720 Double Drum Lifter is designed for the safe and efficient handling of two drums simultaneously, making it ideal for high-volume drum transport in warehouses, factories, and industrial settings. Compatible with standard forklifts, it quickly mounts via fork pockets to streamline workflow and reduce manual handling.

Features

- **High Capacity:** Lifts a total of 720kg (2 × 360kg drums).
- **Versatile Drum Handling:** Suitable for steel, plastic, and fibre drums.
- **Increased Productivity:** Lifts and transports two drums at once, saving time and effort.
- **Adjustable Grip Heads:** Height-adjustable to fit different drum sizes and shapes.
- **Durable Construction:** Heavy-duty steel frame for strength and long-lasting use in demanding environments.
- **Secure, Hands-Free Operation:** Spring-loaded single beak grip heads automatically engage each drum, allowing the operator to load and unload without leaving the forklift seat.
- **Enhanced Visibility and Protection:** Powder-coated safety yellow finish resists wear and corrosion.
- **Safety Attachment:** Includes a heavy-duty chain and end clamp for securely fastening the lifter to the forklift.

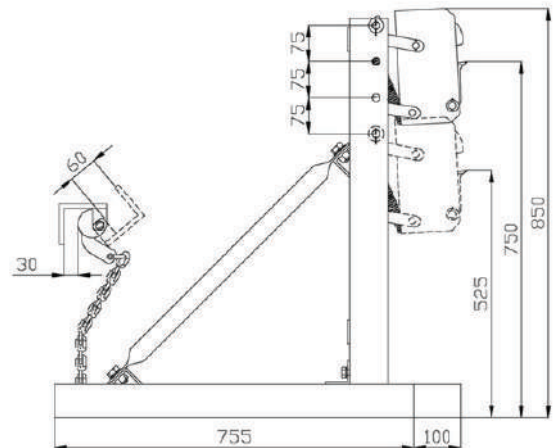

Specifications

Model		MFDDG720
Capacity	(kg)	360 x2
Acceptable Drum		Steel, Plastic, Fibre
Fork Pockets	(mm)	L755xW150xH55
Fork Opening	(mm)	600
Distance Between Inner Pockets	(mm)	450
Distance Between Outer Pockets (Overall)	(mm)	950
Overall Size	(mm)	855x950x850
Net Weight	(kg)	70

Note: Forklift shown in images is for demonstration purposes only and is not included.

Mitaco has national sales and distribution capabilities, our sales office and warehouse is located in Brisbane. Large inventory holdings enable fast-track dispatch of stock orders. This combined with an easy to use online ordering system makes the delivery of stocked products simple, fast and reliable.
