The Liebherr SFPvh 6501 is a freestanding laboratory freezer designed for optimal performance and efficiency. It features circulating air cooling and complies with DIN 13277 standards, ensuring it meets all necessary properties and performance criteria for laboratory and pharmaceutical storage. With a gross capacity of 614 litres the freezer is a highly energy-efficient unit for its size consuming only 702 kWh annually. The SFPvh 6501 temperature is adjustable from -9 °C to -35 °C and features a dynamic cooling system with automatic defrosting. For control and connectivity, the freezer includes a 2.4" colour display with touch and swipe controls, SmartModule connectivity, and interfaces for WLAN/LAN. It also has an integrated data logger with a USB interface other features include visual and acoustic alarms for faults a power failure alarm, and an alarm relay for immediate notification to a central office.

## Description

### Liebherr SFPvh 6501 Solid 1 Door Laboratory Freezer

- Energy-efficient 1.92kWh per 24hrs help with ever increasing electricity prices
- Connect and go easily networked with external systems, such as SmartMonitoring from Liebherr via the integrated WiFi and LAN interface.
- Easy to clean Chrom-Nickel-Steel interior
- Alarm relay with reminder
- Vertical recessed handle
