Sieger Platinum®

disposable forceps feature highly effective gold coated silver alloy tips for outstanding non-stick properties and are of such high-quality they feel the same as reusable instruments. Supplied with pre-attached cable. Ready to use with no need to clean, sterilise or check insulation.

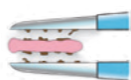

Standard Forceps

'Hot spots' occur during coagulation

'Hot spots' cause localised sticking

Tissue seared to the tip 'breaks off'

Gold Coated Silver Alloy Tip Forceps

'Hot spots' start to occur during coagulation

Heat is rapidly conducted away to prevent adhesion

Forceps removed without adhesion

Gold Coated Silver Alloy Tip

Tip Sizes

Flexi Pin Plug
