- *Extended replacement intervals for the safety gear*

MADE IN GERMANY

- *20 years of experience*
- *In operation worldwide*
- *Proven suitability for all weather conditions*

TECHNICAL DATA

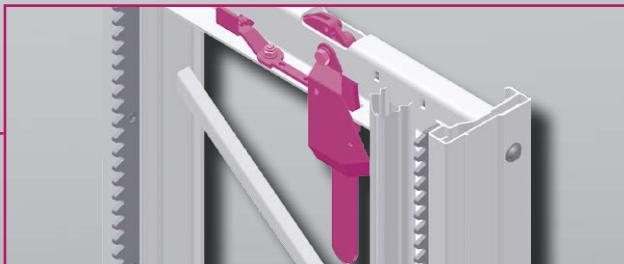

The GEDA 2 PK is an individually applicable rack and pinion hoist with aluminium ladder sections. It is able to transport the crane operator to his working place in very short time.

Its big advantage: concentrated and motivated working from the beginning regardless of meteorological conditions.

The GEDA 2 PK meets the requirements of the European Machinery Directive as well as further country-specific regulations.

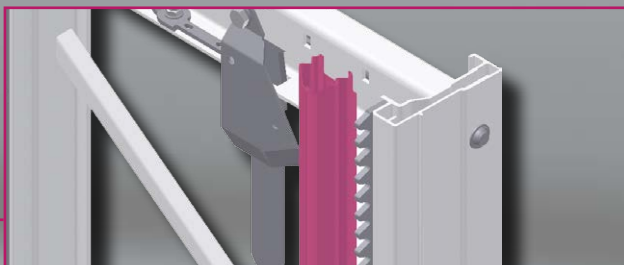

You can use the GEDA 2 PK for ALL TYPES OF CRANES of the different manufacturers.

Patented quick locking system

Lightweight aluminium construction

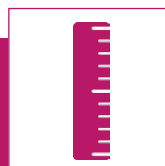

Integrated, patented cable channel

*Flexible supports guarantee the full crane load
(Counteract bending and twisting)*

LOAD CAPACITY

200 KG/2 PERSONS

LIFTING HEIGHT

60/80/120/150 M

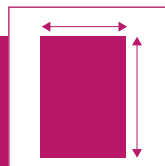

LIFTING SPEED

25 M/MIN

POWER SUPPLY

1.5 KW/400 V/50 HZ/16 A

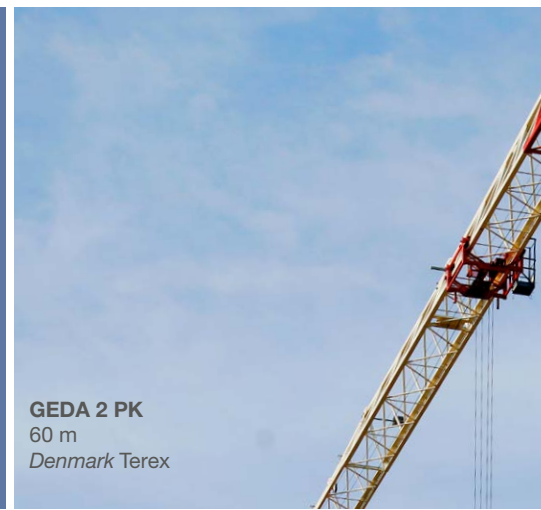

PLATFORM SIZE

0.6 X 1.1 X 2.1 M
