Solutions, since 1979

Measuring Station, Marui Concrete End Grinder & Insulated Moulds For Test Cylinders

Concrete Test Cylinder Measuring Station

Hylec's Measuring Station measures various dimensions of $100 \pm 5\text{mm } \varnothing$ by $200 \pm 5\text{mm (h)}$ test cylinders to Australian Standard AS1012-8.

Marui Concrete End Sample Grinder

The ultimate machine grinds 3 specimen end surfaces at one time, automatically.

Insulated Moulds for Concrete Test Cylinders

Hylec offers insulated plastic concrete test sample moulds that keep the sample warm in winter and cool in summer.
